UCC PLAN REVIEW CHECKLIST

This checklist must accompany permit applications for new building/structures, additions and renovation projects (those which exceed the scope of Alterations-Level 1)

ALL INFORMATION MUST BE FILLED IN, CHECKED, OR MARKED "NA"

Project Name:

Project Address:

Owner/Agent:

Telephone:

Design professional or other person we can contact about info on this form and other project details (if same as Owner/Agent, just provide fax number and e-mail address):

General Requirements:

All drawings, shall be sealed, signed, and dated by a design professional (licensed architect or engineer). The only exception is when all of the following apply:

1. The proposed work only involves remodeling or alterations of an existing building or structure.
2. The proposed work does not change the building's structure or means of egress.
3. The person preparing the plans is not compensated for the preparation of the drawings.

All drawings must be neatly drawn with clean, crisp lettering. They must remain legible after reduction for microfilming.

Computer-generated vicinity maps obtained from web-based services (such as MapQuest) are acceptable, as long as the roadways or street names are legible and will remain that way after reduction for microfilming.

When photographs (including digital) are submitted to show building elevations, the images must be in focus and correctly exposed.

A Pennsylvania Department of Transportation (PennDOT) permit allowing access to a highway under its jurisdiction is not required at the time that application is made for a UCC building permit. If the highway occupancy permit issued by PennDOT requires a location of the building/structure differing from that approved under the UCC building permit, applicants must send the Department a letter requesting a determination whether a revision of approved plans will be required.

While we understand that many items on this checklist may not be included in some alteration or renovation projects, we request that all applicants work through the entire checklist to ensure that any necessary items are included. If any item is not necessary, please check N/A ("not applicable). This will greatly facilitate review and approval of projects.

If any of the non-mandatory sections (any sections other than Site Plans and Architectural Plans) in this document do not apply to the proposed work, please check the "NA" box beside the section title (rather than fill in "NA" next to each item in that section).
